

AUR20720 Certificate II in Automotive Vocational Preparation

Overview

This qualification aims to provide students with the initial automotive employability skills and knowledge that prospective employers are looking for. Similar to the Engineering course, students in Automotive are provided with the opportunity to develop safe work practices in a well equipped automotive workshop learning environment.

Automotive Pathways

Students learn under the direction of a qualified and experience trade trainer in an up to date and safe workshop environment. Under supervision students are assessed as competent and are well placed to enter the industry taking up apprenticeship opportunities in the automotive retail, service and repair sectors of the industry.

They have the skills to work as a:

- trades assistant
- vehicle service assistant
- automotive service assistant
- trainee service person
- automotive trainee
