

WESTERN AUSTRALIAN
COLLEGE of AGRICULTURE

Morawa

An Independent Public School

RTO No 50530

AHC20116 Certificate II in Agriculture

Overview

The Certificate II qualification provides a practical and engaging introduction to a variety of theoretical and skills-based learning opportunities. The Certificate II assists students to discover where their interest, skills and passions lie in the farming context. Certificate II students may also follow a pathway to further study enrolling after Year 12 in TAFE Certificate III, IV or a Diploma in Agriculture.

Agricultural Pathways

Agricultural College graduates are well sought after in the farming industry. The hours spent working and learning on the college farm throughout their three years provide them with an advantage over other school leavers in many entry level roles in agriculture. These include:

- Livestock management and stock and station traineeships
- Grain and horticultural production
- Machinery operation and management
- Wool industry roles from the paddock through to auction room floor
- Agricultural apprenticeships and traineeships

Skills

- Assist agricultural crop establishment
- Assist agricultural crop harvesting
