

WESTERN AUSTRALIAN
COLLEGE of AGRICULTURE

Morawa

An Independent Public School

RTO No 50530

AHC30116 Certificate III in Agriculture

Overview

Like the Certificate II qualification, students completing the Certificate III in Agriculture are exposed to a variety of theoretical and skills-based learning opportunities. Certificate III requires students to develop a more in-depth understanding of the theory underpinning farming practices; align concepts learnt in subjects like Plant and Animal Production Systems with practical tasks and decisions on the farm.

Agricultural Pathways

The Certificate III qualifications open the doorway for students wanting to gain a non-ATAR entrance into university to study Agriculture. Portfolio entry courses offered by Curtin University (Geraldton University Centre and/or Muresk Institute) provide successful Certificate III students the opportunity to apply for entry into the Associate Degree in Agribusiness.

Skills

- Establish agricultural crops
- Maintain agricultural crops
