

CERTIFICATE II IN ENGINEERING PATHWAYS

NATIONAL ID: MEM20422

This qualification is intended for people interested in exposure to an engineering or related working environment with a view to entering employment in the area. It will equip graduates with knowledge and skills which will enhance their prospects of employment in an engineering or related working environment. This qualification delivers broad-based underpinning skills and knowledge in a range of engineering and manufacturing tasks which will enhance the graduates' entry-level employment prospects for apprenticeships, traineeships or general employment in an engineering-related workplace.

Engineering Pathways

Students learn under the direction of a qualified and experienced trade trainer in an up to date and safe workshop environment. Under supervision students are well placed to enter the industry. This leads to opportunities in:

- Fabrication Production (Aluminium, Die Casting, Foundry)
- Production (sheet metal and general fabrication)
- Production welder (light/heavy)
- Boilermaker
- Composite Tradesperson
- Certificate III, Certificate IV or Diploma
