

CERTIFICATE III IN AGRICULTURE

NATIONAL ID: AHC30122
ON APPLICATION

This qualification describes the skills and knowledge for general job roles in agriculture including livestock production, cropping or in the case of mixed farming workplaces, both cropping and livestock. Job roles vary across different industry sectors. Individuals with this qualification perform tasks under broad supervision involving a broad range of skills that are applied in a wide variety of contexts, which will involve discretion and judgement in selecting and operating equipment, coordinating resources and applying contingency measures during work.

Agriculture Pathways

Agricultural college graduates are well sought after in the farming industry. The hours spent working and learning on the college farm throughout their three years provide them with an advantage over other school leavers in many entry level roles in agriculture. These include

- Livestock management and stock and station traineeships
- Grain and horticultural production
- Machinery operation and management
- Wool industry roles from the paddock through to auction room floor
- Agricultural apprenticeships and traineeships

Costs

Please refer to the Contributions, Charges and Fees booklet.

Duration

1 Year, one day per week (Years 11 & 12)
